

CAREER OPPORTUNITY

The Fiji Sugar Corporation Limited invites applications from suitable, qualified, innovative and self-motivated individuals who meet our requirements to take up the Co-Generation Electrical Engineer role in the sugar mills.

CO-GENERATION ELECTRICAL ENGINEER

The Electrical Engineer is responsible for the day-to-day operations and maintenance of the Co-generation plant and Switchyards.

Principal Accountabilities:

- Oversee and ensure timely completion of the season and off-season works pertaining to the Co-generation electrical equipment;
- Ensure that subordinates receive relevant training and experience necessary to improve their level of expertise;
- Ensure all work is carried out in accordance with standard operating procedures, codes of practice, industrial awards and agreements for quality outputs;
- Ensure achievement of operational targets and KPI's as set out by the mill management;
- Ensure timely completion of season and off-season works pertaining to the Co-generation Electrical equipment;
- Ensure operation targets and KPI's set by the Corporation are achieved.

Qualifications/Requirements:

- A graduate/Diploma in Electrical & Electronics Engineering;
- Minimum of 5-10 years in a sugar mill-based co-generation plant;
- A team player must be able to work with minimum supervision;
- Knowledge of OHS legislation.

How to Apply: Written applications stating the position and choice of location, including copies of documents relating to qualifications, experience, and references with telephone contact, should be forwarded to:

**The Human Resources Department
FSC Limited, Head Office
Private Mail Bag
LAUTOKA**

Alternatively, applications can be emailed to recruitment@fsc.com.fj

The vacancy will close on Friday, 22 November 2024.

Late and incomplete applications will not be considered. (Only shortlisted candidates will be contacted for an interview.)

"The Fiji Sugar Corporation Limited is an equal opportunity employer."
